

DDA 75-4127

30 AUG 1975

MEMORANDUM FOR: Inspector General
SUBJECT : Inspection Program
REFERENCE : Memo dtd 27 Aug 75 to DDA fr IG, same
subj (IG 75-3227)

1. As you are well aware, the Office of Security has borne the brunt of a tremendous amount of investigation, not only at the hands of the Presidential Commission, but also by the Senate and House Select Committees. To add to this almost staggering work load, which is debilitating and the subject matter demoralizing, we now have the Department of Justice investigating some 46 present and former members of the Office of Security [REDACTED]

25X1A

2. It is our contention that if on top of all of this the Agency conducts an internal inspection program with the Office of Security first in line, we may be doing ourselves and the Office of Security personnel a disservice.

3. I would strongly urge that you not select the Office of Security as the first component in the Agency for your inspection, but rather put it down the list somewhat, even second or third would have some ameliorating aspects to it. We would be content to have Personnel, Logistics, or Training go first and we are even magnanimous enough to suggest that possibly a component from the DDO might be first in line.

Signed: John F. Blake
